A Test of Weak-Form Efficiency in Residential Real Estate Returns

Rayburn, William; Devaney, Michael; Evans, Richard

Journal of the American Real Estate & Urban Economics Association v15n3

PP: 220-233 Fall 1987

ISSN: 0270-0484 JRNL CODE: REU

...ABSTRACT: the study was comprised of the population of all sales of single-unit residential property **over** a 15-year period, 1970-1984. The city was separated into 10 submarkets based on...

...of variance procedure was used to stabilize the variance both within and across submarkets. Nonmarket **financing** was **controlled** partially by eliminating **transactions** with loan-to-**value** ratios **greater** than 95%. The remaining transactions were employed to produce a mean return series. Seven of the 10 submarkets showed time patterns, but after adjusting for **transaction costs**, all 10 submarkets were **determined** weak-form efficient for the period 1970-1984. However, this was not found for the...

...Abstract: pump, when a storage capability is available and the electrical utility offers time-of-day **price** incentives in **order** to help level its diurnal load profile. The cost functional for optimal **control** is the **monetary** cost of purchased electrical energy. A bilinear model for the heat pump is assumed. When the ambient temperature is cyclic **over** the 24-hour period of the price pattern, periodic boundary conditions apply and the closed extremal trajectories are found to be unique and easily **determined** with a one-dimensional numerical search. These extremals have simple characteristics and reveal plausible strategies...
